

CARRIERS OF 1/29 ROBERTSONIAN TRANSLOCATION

update April 23, 2015

This list contains carriers of 1/29 Robertsonian Translocation that have been confirmed through blood chromosome analysis, and have subsequently been reported to the Canadian Blonde d'Aquitaine Association. It also contains animals identified as 1/29 carriers through the pattern of inheritance. If you have a confirmed carrier animal not on this list, please contact the Association.

AI SIRES WITH 129C ANIMALS IN THEIR PEDIGREE

update Sept 1, 2015

This list contains sires with semen available for artificial Insemination (AI) that have carriers of 1/29 Robertsonian Translocation (129C) in their pedigree. These bulls were collected for AI prior to the by-laws governing 1/29 Robertsonian Translocation being passed, and in most cases were not alive to be tested.
